«Children Development Center «WORLD OF CHILDHOOD»
the network of private play schools - Moscow.

Project goals:

to acquaint children from different countries and the international pedagogic community with Russian culture, history of Russia, folk art. also to improve the education quality, to supplement the wealth of knowledge on culture and folk art of different countries and continents by means of interchange of knowledge in the field of education.

Project objectives:

- _____ The development of creative talents of the preschool children;
- _____ inspiring fancy and imagination by the young talents;
- _____ entering into and development of the bilateral cooperation with foreign pre-school establishments, schools, public interest and cultural organizations of foreign countries on the basis of partnership treaties and agreements in the field of education, science and culture;
- _____ the range extension of the professional interaction of educators;
- _____ enabling the educators to compare their achievements with the achievements of their colleagues from other play schools;

The Russian-Greek pedagogic interchange 2016 -2017

MATRYOSHKA PLAGONA MATREGONA

Please meet!
Beauties!

This interchange was fulfilled as part of 2016 – the
Year of Cross Cultural Interchange between Russia and Greece.

The 1nd stage:

By the Russian educators was prepared the pedagogic material «Russian beauty Matryoshka» – the grand-scale series of various actions for the purpose of acquainting children and adults with Russian national toy.

- Methodical guidance notes for the fulfillment of the project;
- The showcases for the children and educators;
- Video masterclass;
- The animated cartoon film and music video for the children, created by the educators of Russia;
- The wooden workpieces for paintings;
- The Russian nesting dolls (the Matryoshkas) and the puppet theatre for the mini-museum;
- The stuff for counting;
- Colouring book for the children;
- The statute on the competition «Beauty Matryoshka»

Play schools , ANO (Autonomous Non-Profit Organization)
«WORLD OF CHILDHOOD» Russia, Moscow

Forwarding of the «Magical box»

Play schools, Greece, Patras

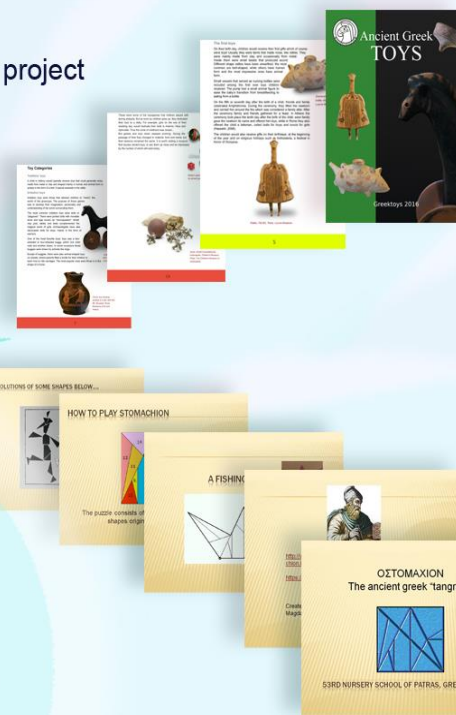

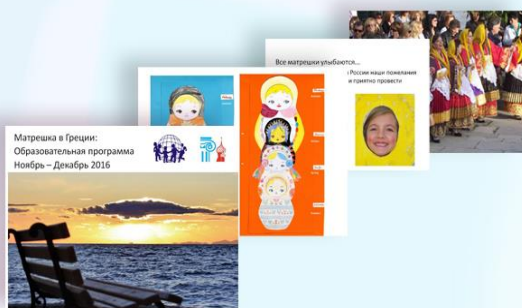

The 2nd stage:

By the Greek educators was prepared the material, reflecting national peculiarities of the Greek culture, which would be interesting for the children and educators of Russia to get acquainted with.

- The symbol of the Greek culture is the doll Plagona for the mini-museum,
- The showcases for the children and educators,
- The ancient game of Pythagoras,
- The stuff for counting,
- The drawings of the children for the competition «Beauty Matryoshka»,
- The showcase – the report on carrying out of the project in the Greek play schools.

Returning of the «Magical box»

Play schools, ANO (Autonomous Non-Profit Organization «WORLD OF CHILDHOOD» Russia, Moscow

The 3rd stage:

Detailed introduction to Russian educators with experience Greek colleagues.

More than 300 kids and adults from Greece participated in project explore the matryoshka.

Remarkably interesting turned to be the acquaintance of the educators and children from Russia with the Plagona, the bell-like doll, which was sent by the Greek educators as part of the cultural interchange.

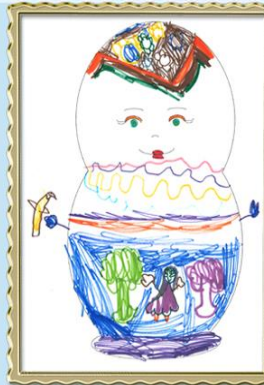

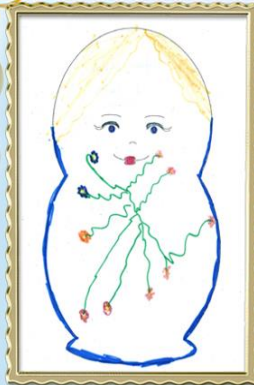

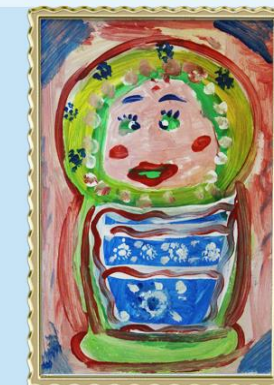

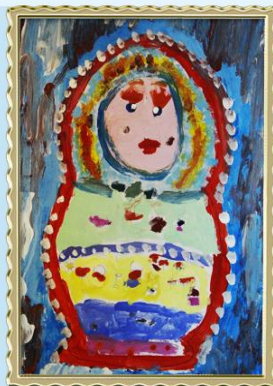

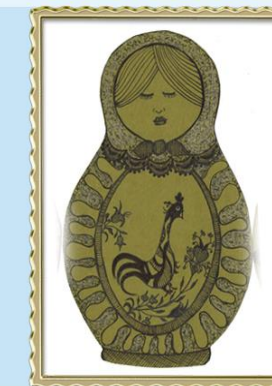

There were also sent more than 200 splendid works for participation in the competition «Beauty Matryoshka» with the parcel from Greece . The works of the children of the nursery groups, the children of the play schools, the pupils and even the students of the University of Patras with their own vision of the Matryoshka were sent to the competition .

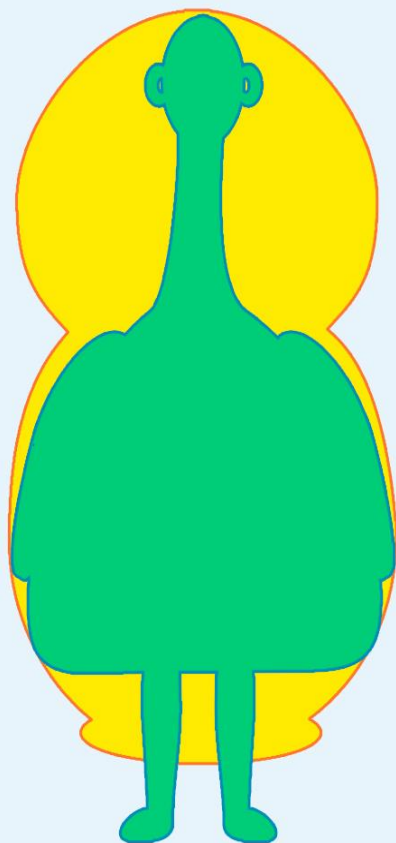

To the competition winner «Beauty Matryoshka»

The Matryoshka is the symbol of friendship between Russia and Greece, its image was created by the Greek educators and embodied in Russia!

Having combined these two symbols – the Matryoshka and the Plagona – the Greek educators created the new image of the doll. The «**Matregona**» is the composite character according to its form, inner sense and outer image. **Matre** (from the “Matryoshka”), **Gona** (from the “Plagona”). The upper part is still extensional like the Matryoshka’s one, but the face of the toy got smaller, the neck lengthened, and there appeared the legs under the sizable bouffant skirt. Here are the amazing and interesting solutions, coming out from the cooperation of the professionals concerned about their engagements.

The works of the Greek children on the topic of searching for the tracery for the Matregona.

The Russian educators and children came into work on designing
of the new toy - the «**Mat**re**gona**».

‘The culture of different countries study through a pedagogic exchange’ International Project under the management of Russian Committee of preschool education (OMEPE).

Theme No. 1. Add your national toy into the circle of the world of childhood

Let us create a unique pedagogic collection of materials for children together and may it become the contribution to the cause of preservation of the common heritage of our great and beautiful world!

Participation in the project is allowed at any time; just leave your application on e-mail:
